

FOR IMMEDIATE PUBLICATION AND DISTRIBUTION

ScienceOpen and Jaypee Brothers Medical Publishers partnership highlights orthopaedics research

Berlin & New Delhi, August 16, 2019

[ScienceOpen](#) and [Jaypee Brothers Medical Publishers](#) are pleased to announce a partnership that integrates six orthopedics journals published by Jaypee in the ScienceOpen research discovery environment in the form of a [featured collection](#).

Established in 1969, Jaypee Brothers Medical Publishers is South Asia's largest and fastest growing medical publisher that supports the medical community as an education resource from the undergraduate to practitioner level. ScienceOpen's partnership with Jaypee puts orthopedics research into a broader scholarly context that facilitates and increases its discoverability.

The new Jaypee '[Orthopedics](#)' collection on ScienceOpen features six journals: [Strategies in Trauma and Limb Reconstruction](#), [The Duke Orthopedic Journal](#), [International Journal of Head and Neck Surgery](#), [Journal of Spinal Surgery](#), [Journal of Foot and Ankle Surgery](#), and [Indian Journal of Physical Medicine and Rehabilitation](#).

ScienceOpen and Jaypee hope that this cooperation will contribute to the scientific and social impact of orthopedics research worldwide. As a featured collection on the research discovery platform ScienceOpen with over 57 million article records, the Jaypee '[Orthopedics](#)' is integrated into a global research environment with dynamic sorting and filtering tools. Interactive features such as community curation, article reviews, and comments create a forum for researchers to discuss their findings and start collaborations.

Stephanie Dawson, CEO of ScienceOpen, says "We always strive to take a global perspective on scholarly communication, so we are very excited to be working with Jaypee Brothers Medical Publisher from India. I believe we have a lot to learn from one another."

ScienceOpen highlights the new Jaypee '[Orthopedics](#)' collection in its research discovery environment as an important step in optimizing the scientific and social impact of orthopedics research.
