Conference Proceedings on ScienceOpen

You facilitate a conference and want to increase the visibility and reach of the conference's proceedings, posters, and other publications.

ScienceOpen provides open access hosting for your conference proceedings in a unique, featured Collection to give your conference an online presence & promote discovery within our discovery environment.

ScienceOpen is a freely accessible research communication platform with the technological infrastructure to support multi-dimensional search, community curation, and researcher networking. We provide space and services to publishers and other types of customers to promote their content – from enriched metadata and promotional packages to open access hosting solutions and custom-tailored publishing environments.

Benefits of hosting Conference proceedings on ScienceOpen:

- **Integration:** ScienceOpen connects your digital content to the world with Crossref, ORCID and Altmetric™ integration, indexing by Google Scholar and more for greatest discoverability.
- **Interaction:** Provide exciting ways for your users to search, browse and interact with content from the conference. Plus, gain new readers from ScienceOpen's userbase. Keep people talking about your conference all year round!
- **Management:** ScienceOpen provides intuitive tools for managing the conference publication work flow including submission and peer review management or editorial upload interface, admin access and more.

Open access hosting for conferences on ScienceOpen:

- Conference proceedings benefit from a contextual environment of 70 million records—driving search and discovery for your content.
- Author submission and peer review infrastructure or editorial interface to upload content to ScienceOpen, alternatively upload XML records via FTP.
- Full XML and PDF downloads via read button, PDF preview pane.
- DOI deposit with Crossref, integration with ORCID; long term archiving, output to A&I services
- Dynamic search and discovery interface all content with 'smart' filtering and sorting.
- Conference series in a single Collection to consolidate conferences from years past into one place.
- Conference contributors can add their profile to the platform to benefit from the self-promotion tools for users, add lay summaries, and share and track their work.
- Commenting, recommendation and review functionalities.

Enactive Approaches to Designing and Understanding Immersive Interactive Virtual Environments in Mental Healthcare
TOR BRUCE (2020)

Recent work demonstrates the potential benefits of narrative techniques for individuals with traumas that underpin many mental health problems. Likewise, research over the last decade highlights possibilities for immersive technologies in pro...
