

INTEGRATOR

Upgrade your website with ScienceOpen

You are looking to maximise the impact and useability of your Journal/Book/Conference content.

ScienceOpen can enhance your website with your ScienceOpen collection(s) in a fully searchable and sortable deployment with a few lines of code.

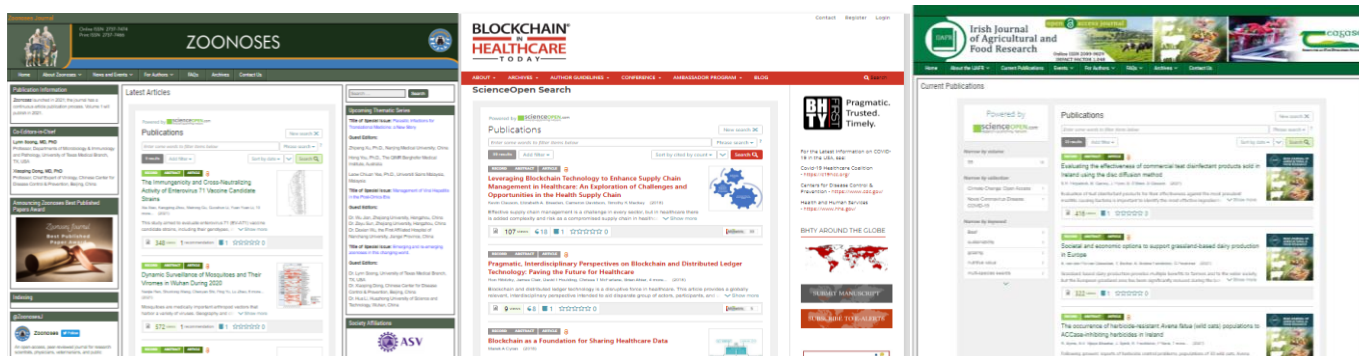

ScienceOpen is a freely accessible research communication platform with the technological infrastructure to support multi-dimensional search, community curation, and researcher networking. We provide space and services to publishers to promote their content - from open access hosting solutions to enriched metadata and promotional packages to custom-tailored publishing environments.

ScienceOpen's discovery technology:

- **Context:** Publish your journals and books within the context of 73+ million article records on ScienceOpen.
- **Innovation:** ScienceOpen offers technology at the cutting edge of scholarly publishing, providing solutions for versioning, open peer review, data linking, open citations and more.
- **Community:** Use ScienceOpen infrastructure to build communities around your books and journals. Users can share, recommend, comment, or review books and chapters.

ScienceOpen INTEGRATOR

- Embed your Journal/Book/Topical collection onto YOUR own website
- Powered by ScienceOpen, YOUR users can benefit from the search and discovery tools available on the ScienceOpen platform – such as filters and sort capability but on YOUR website.
- Fully customisable with colours to match your website, selection and reordering of facets menus, change the default sort setting (most cited, latest date etc)
- Latest Articles with an automatic feed capability – as soon as your collection is updated on ScienceOpen, the INTEGRATOR updates too!
