

A complex network diagram with numerous nodes and connecting lines, serving as a background for the top half of the page.

Metadata

Enhance your metadata with ScienceOpen

You are looking to maximise the impact and useability of your metadata.

ScienceOpen can enhance your metadata for you making certain of its dissemination to the right places will all the right components.

ScienceOpen is a freely accessible research communication platform with the technological infrastructure to support multi-dimensional search, community curation, and researcher networking. We provide space and services to publishers to promote their content - from open access hosting solutions to enriched metadata and promotional packages to custom-tailored publishing environments.

ScienceOpen's discovery technology:

- **Context:** Publish your journals and books within the context of 85+ million article records on ScienceOpen.
- **Innovation:** ScienceOpen offers technology at the cutting edge of scholarly publishing, providing solutions for versioning, open peer review, data linking, open citations and more.
- **Community:** Use ScienceOpen infrastructure to build communities around your books and journals. Users can share, recommend, comment, or review books and chapters.

ScienceOpen's Metadata Technical Hub

- For Journals, Books and Book chapters
- DOI deposit with Crossref including key components such as:
 - License Information
 - Abstracts
 - References/Open references
 - ORCID IDs
 - Funding
- Long-term archiving – CLOCKSS
- DOAJ deposit
- Dissemination to A&I services
- Google metatags – feed to Google Scholar
