# Metadata

## Enhance your metadata with ScienceOpen

**You** are looking to maximise the impact and useability of your metadata.

**ScienceOpen** can enhance your metadata for you making certain of its dissemination to the right places will all the right components.

**ScienceOpen** is a freely accessible research communication platform with the technological infrastructure to support multi-dimensional search, community curation, and researcher networking. We provide space and services to publishers to promote their content - from open access hosting solutions to enriched metadata and promotional packages to custom-tailored publishing environments.

**ScienceOpen's** discovery technology:

- **Context:** Publish your journals and books within the context of 89+ million article records on ScienceOpen.
- **Innovation:** ScienceOpen offers technology at the cutting edge of scholarly publishing, providing solutions for versioning, open peer review, data linking, open citations and more.
- **Community:** Use ScienceOpen infrastructure to build communities around your books and journals. Users can share, recommend, comment, or review books and chapters.

## ScienceOpen's Metadata Technical Hub

- For Journals, Books and Book chapters
- DOI deposit with Crossref including key components such as:
  - License Information
  - Abstracts
  - References/Open references
  - ORCID IDs
  - Funding
- Long-term archiving – CLOCKSS
- DOAJ deposit
- Dissemination to A&I services
- Google metatags – feed to Google Scholar
